DVB-S TV PCI Card

TV VIDEO

Features

- High/ Standard Definition DVB-T Reception
- Crystal clear picture quality
- Direct DTV recording & Scheduled recording
- EPG (Electronic Program Guide) by DVB specification
- Convert programs into DVD/MPEG4 format
- Time-shifting

Specifications

- Processors:
- - Conexant CX23881 PCI Bridge
- - LG QPSK NIM Tuner Tuner
- - Input Connector: F-female 75 ohms
- - Receiving Frequency: 950 ~ 2150 MHz range
- - Input level: -65 ~ 25dBm
- - QPSK IC: STV0299B
- - Symbol Rate: 1 ~ 45 Msps
- LNB & Switch Control
- - Supply Voltage : 13/18V
- - supports Data Burst & Tone Burst
- - DiSEqC : 1.2
- - Antenna and LNB control : 22KHz Tone

- Drivers
- - Conexant CX2388x drivers
- - Typhoon tuner driver
- - Typhoon FusionHDTV Application Software
- - Typhoon's full software Video decoder
- - Typhoon's DxVA Video decoder
- - Typhoon's audio audio decoder

System Requirements

- Intel® Pentium® 500Mhz or faster CPU
- 128MB of system RAM Memory or more
- Requires one PCI slot
- Windows® ME / 2000 / XP or later
- DVB-S satellite and cabling
